

The Whale Museum's Summer Lecture Series

Non-Invasive Wildlife Monitoring with the use of Scat Detection Dogs

CONSERVATION CANINES

CENTER FOR
CONSERVATION BIOLOGY

at **The Whale Museum** | 7pm | July 28th

Sam Wasser

Sam Wasser, PhD will discuss the Center for Conservation Biology's Canine Conservation Program.

Dr. Wasser is the director of the Center for Conservation Biology at the University of Washington and he is acknowledged worldwide as a pioneer of non-invasive wildlife monitoring methods.

The Whale Museum's Lecture Series is dedicated to providing our local community and visiting public with knowledge and wonder of the natural world. The lectures are given by local or visiting experts in their field. Join us as they share their recent research projects, stories, and experiences.

Each lecture is free but donations are greatly appreciated. The proceeds from your generous donations are crucial to our research and education efforts.

Next Lecture - August 4, 2010, 7 p.m: Joe Gaydos
